Finals Prep: Basic Tech Reminders

Contents: Grads Email Workshop, Wi-Fi Tips, Computer Labs, Box Cloud Storage

GRADUATING SENIORS: BACKUP INFO SESSION

LEARN HOW TO SAVE YOUR SCRIPPS WORK BEFORE YOU LEAVE COLLEGE!

Did you know that all Scripps accounts close after you graduate? Your email is good for one year, but don't wait! Join IT-FITS in learning how to back up all your emails, completed assignments, and anything else you'll want to save! We will work through it with you step-by-step and answer all your questions in our workshop.

Email itfits@scrippscollege.edu to RSVP and submit questions

Non-seniors and walk-ins welcome!   **2022 grads join via Zoom**

Tuesday 5/2, 12pm @ Student Union (above Malott)

Wi-Fi Connection at the 5Cs:

When you open your computer and click the Wi-Fi fan, 4 domains will appear: Claremont-WPA, eduroam, Claremont-ETC, and Claremont

Wi-Fi

Claremont-WPA
Connected, secured
Disconnect

Username: 5C Email
Password: Email password

Claremont-ETC

This email address is used with non-computing devices (e.g., smart speakers, gaming consoles)

Claremont

eduroam

Username: 5C email address
Password: Email password
Warning: This network logs out every hour and is not secure. IT discourages use of this one.

Username: 5C Email
Password: Email password

For MACs:
Deleting saved networks from your MAC can help connect to Wi-Fi faster.
System preferences > Network > Wi-Fi > Advanced > highlight network and click "–" sign to forget.

If your laptop is acting unreliably, there are computer labs available in every residence hall. Steele 226 is the main student computer lab.

GRADUATING SENIORS: BACKUP INFO SESSION
## Tuesday 5/2, 12pm @ Student Union (or Zoom)

Using BOX to back up files:

Don't risk losing your essays or assignments before they're submitted! Everyone with an active Scripps email has unlimited cloud storage space in Box!

- Storing your files in Box allows you to access your files from any computer or device
- Collaborate in real time with Microsoft Online, through Box
- Get started at inside.scrippscollege.edu/box
- For more info, visit our website

General Tech Tips:

For MAC (Ventura 13.1)

Identical WIFI Networks are available on MAC and Windows.

If you do not want any calls or texts connected to your iOS devices to display, activate "do not disturb."

When attending a virtual class or doing an online exam or presentation, ensure a proper Bluetooth connection with the Bluetooth settings tab.

If you want to raise or lower your brightness, move this dial to ensure nicely adjusted visuals for your preferences!

Monitor your volume with the volume bar, raising the volume if your audio settings are too quiet.

FOR PC (Windows 11)

When attending a virtual class or doing an online exam or presentation, ensure a proper Bluetooth connection with the Bluetooth settings tab.

As temperatures become extreme, computers will self-regulate their batteries and run out faster. To save battery and lower your brightness, use the battery saver.

If you want to raise or lower your brightness, move this dial to ensure nicely adjusted visuals for your preferences!

Monitor your volume with the volume bar, raising the volume if your audio settings are too quiet.
